them took off their coats and threw them down near their hats.

Narrow Escape From Discovery.

I hardly breathed during this exciting journey, and I was so nervous that I shifted my hand or foot would have meant certain discovery. I was relieved when I reached the way and commenced their ploughing.

After the farmer had got to work I took out my rifle and saw that there was any chance of getting away from our nose too secure hiding place, and what should I see but a number of farmers, and their families, coming into the field. On their getting to work they separated, and in what time I don't know, they were at work. With the river holding us

until highfall, and often they passed the bush, but without discovering us. As soon as night fell we resumed our journey, by ascending the river, and then crossing it by a bridge on all day. It proved to be a swiftly running stream, but we managed to reach the other side without incident.

Then followed another night of adventurous trekking, during which we were again surprised by finding the open country for the main road, we were once shadowed by a civilian, and it was only by a piece of good luck that we managed to shake him off.

But our narrowest escape was when we almost ran into the arms of a German soldier, who was on the road, and who was about to shoot us. We were saved by a sudden change of direction, and we were able to escape.

myself, especially on my ground towards a water thicket, my comrades following in the rear. On reaching the brushwood we got on our feet and ran forward, and I saw that I was not alone. When once covered by the trees, we ran as fast as we could, and eventually reached the other side of the wood, where we decided to take a rest.

This little experience cost us another day and night in Germany. However, we were not the only ones who certainly have reached the frontier that night. However, after resting in the bush, we started on our journey again at night, and, despite many narrow escapes, we reached the frontier at last. We were then taken to a German village, where we were held in a prison.

by these workers, seemed impossible to get away. Fortunately, my comrades and I never lost heart. To add to our difficulties, we saw a man gradually working his way along the opposite bank of the river, cutting grass with an ordinary reaper. He lingered over his work, and when he reached a spot opposite us, he moved forward again. I did not know whether the sentry had heard us or not. He stood with his back to us for a few seconds, and I felt as though I could have strangled several elite strafe in order to get a few straggling pedestrians. Every thing went off nicely until we were within 30 yards or so of leaving the river. Then the strafe suddenly saw a gendarme passing a lighted lamp and coming to our direction. In an instant I was on my stomach, the Frenchman doing likewise. We then

river. His eyes seemed to be fixed on our bush, but after he had finished his dreaming, he went on with his work, and gradually worked his way far down the bank.

Whole Day in Hiding.
The workers remained in the field

the brave Reubenman because of his hard breathing.

Another Day's Delay.
The sentry looked around as though he was listening. He then stepped into the middle of the road and looked up and down. As he was doing this

drawn to the opposite side of the street, where, luckily, we found an opening running off the main street.

We hurried down this side street until we came to a field, over which we raced under cover of a small thicket.

(Continued on Last Page.)

When the Baby

Needs a Laxative---

Needs a Laxative---

The nursing mother will also find it ideal for herself, and it is especially important that she be free from constipation.

The mother has the choice of many medicines—cathartics, purgatives, bitter-waters, pills, physics, etc. But the little body doesn't need such harsh remedies for they wrench the system and do only temporary good, so often followed by an unpleasant reaction.

The nursing mother will also find it ideal for herself, and it is especially important that she be free from constipation.

Syrup Pepsin is guaranteed to do as promised or the druggist will refund the money. Thousands of cautious families have it in the house, secure against the little ills.

PAPE'S
 22 GRAIN TABLETS OF
DIAPEPSIN
 FOR INDIGESTION
 Registered in U. S. Pat. Office

Manufactured by Pape's
 1000 Broadway, New York, N. Y.

The mother has the choice of many medicines—cathartics, purgatives, bitter-water pills, physicals, etc. But the little body doesn't need such harsh remedies for they wrench the system and do only temporary good, so often followed by an unpleasant reaction.

Dr. Caldwell's
SYRUP PEPSIN
The Perfect Laxative

NO INCREASE
 In spite of numerous laboratory tests due to the War the manufacturers of Dr. Caldwell's Syrup Pepsin are guaranteeing their purity and ascertaining the war times so that this healthy laxative may remain at the pre-war price of 50c and \$1 a large bottle. So sold by druggists for 25 years.

FREE SAMPLES
 Dr. Caldwell's Syrup Pepsin is the best selling liquid laxative in America. If you have never used it and would like to sample it before buying, send your address for a free trial bottle to Dr. W. H. Caldwell, 460 Washington St., Monticello, Ill. If you have babies in the family send for a copy of "The Care of the Baby."

**ARE YOU
 CHOKED UP
 WITH CATARRH?**

**No Joyous Spring-Time
 For Those Who Can
 Hardly Breathe**

If you are in the grasp of Catarrh, your experience should convince you that the disease is beyond the reach of sprays, douches, jellies, balms, ointments, and other locally applied remedies.

When the air passages become so choked up that every breath you take is difficult, when the throat and nose are so clogged up with offensive mucous that you are constantly hacking and spitting in an effort to clear your nostrils, every effort you make to get relief by the use of sprays and douches is promptly followed by new accumulations, so that no headway whatever is made toward getting rid of the disease.

If you want to get rid of Catarrh, throw your sprays, atomizers and other local treatment to the winds, and pay heed to the voice of science.

Realize that Catarrh comes from a germ which infects the blood, and that the disease cannot exist when these germs are routed from the blood. The rational and successful treatment, therefore, is one that reaches the blood, and cleanses it of every trace of impurity and rids it of those tiny catarrh germs. Of course no local remedies can reach the blood supply, and that is why Catarrh is not cured by sprays and lotions.

The one great blood remedy that has made a wonderful record is S. S. S., which has been on sale by drug stores everywhere for nearly half a century. If you would be rid of your Catarrh, get a bottle of this great old remedy today, which will give you satisfactory results, as it has in so many cases. You will find that you are on the right treatment at last, as S. S. S. will do for you what has for thousands of others. Start taking S. S. S. to-day, and write a complete description of your case, to our head physician, who will give you all necessary instruction by return mail, without charge. Address Medical Director, 403 Swift Laboratory, Atlanta, Ga.—Adv.

CHRONIC DISEASES

Our success in the treatment of Chronic Diseases is due to the fact that we never attempt treatment unless we can locate the cause and remove it. We eliminate all doubt and never experiment. For this reason we cure almost every case we treat, therefore, if you are suffering with a deep-seated chronic trouble it will pay you to call and get our opinion and advice. If curable we will treat you reasonably, if not will tell you so.

WE CURE PILES WITHOUT PAIN OR CUTTING

Write for our new revised booklet on Rectal diseases and their treatment. It will be sent to you in sealed envelope FREE of charge and without obligation.

BOOK

We also treat successfully all Skin, Kidney, Bladder and Rectal Diseases.

We have had twenty years experience in active practice and our offices are the largest and best equipped in the country.
